*CMS estimates that if Congress freezes (provides a 0% update)- the CF for 2014 would be \$35.6446 because CMS would apply a budget neutrality adjustment as required by law.
 ** Per footnote to Table 73 in the proposed rule released on 7/8/13, the estimated 2014 conversion factor adjusted to include a budget neutrality adjustment is 26.8199. A reduced conversion factor will apply unless a fix is adopted by Congress.
 *** Per footnote to Table 73 in the proposed rule released on 7/8/13, this estimate is based on the 2013 conversion factor adjusted to 35.6653 to include the budget neutrality adjustment.
 **** A conversion factor of 27.2006 is found in the final rule, but Congress is likely to revise this number upward. Payment rates have also been calculated using the final 2013 conversion factor of 34.0230 to provide approximate payment rates if Congress does act to revise the conversion factor.
